

Adjustments made from draft submission for wireframes as mentioned from Client:

- Shows user browsing listings without being logged in
- Updated and shows pricing details for hosts home page
- Split up making a listing into multiple pages
- Adjusted to allow multiple images added for creating a listing
- Adjusted amenities to be checkboxes
- Added Reviews
- Added how much money host has made (on host home page)

Noted for implementation when we program as mentioned from Client:

- Flexible date range for filters results incase it doesn't fit users input
- Implementing discounts depending on how long a booking is
- Using a javascript calendar
- Setting pricing for particular dates
